Profile

I am a self inspiring future front end developer. Trying to find my place in this world doing what I love to do . Which is creating projects to be proud of.

Education

Web Application Development Certification - Ivy Tech Community College, 3501 N First Ave, Evansville, IN 47710

10 2020 - Current Current

I am currently in the process to acquiring a certification . To help push me toward learning more while continuing an career path.

Projects

Rainbow Keyboard

With the skills I have learned I made a function keyboard to be used at my leaser . With the toggleable ability to make it have a rainbow color effect.
CSS Animations SCSS HTML5 JavaScript

News Website

I built a news website as a hobby project that would gather news from reputable sources and display breaking news in web components I created.
Css Scss HTML5 JavaScript

Certifications

Responsive Web Design - Free Code Camp

While studying for this certification . I learned crucial technics and life skills . Skills like instead of learning everything of CSS . Switch to learning about SCSS and learn CSS from SCSS.

JavaScript Algorithms and Data Structures - Free Code Camp

With mastering this certification . I learned to understand how websites work and how to organize problems and figure out the most logical conclusion. To the best of my ability.
